

(استيعاب) Reading comprehension Quiz

Name :

Class: 6/-----

Read the following passage, then answer the questions below:

Honeybees are very busy little bugs. They live in a big house called a hive, with many thousands of other bees. The bees fly **fast** to flowers to find nectar. Nectar is a sweet liquid they use to make honey, which is their food. But they have an even more important job: pollination. When a bee lands on a flower, yellow dust called pollen sticks to its body. When it flies to the next flower, it drops off some pollen. This helps the plants grow new fruits and seeds. We need them because many of our foods, like apples and carrots, rely on this help.

A) Choose the correct answer from a,b,c or d :(2×1 = 2 m)

العنوان المناسب

1- The **best title** for this passage is :

A) The Sweet Taste of Honey

B) Where Bees Sleep

C) Bees and Flowers: A Team Effort

D) How to Find Nectar

ضد

2-The **opposite** of the word (**fast**) in line (2) is :

a- slow

b-fat

c-thin

big

B) Answer the following questions : 2×1 = 2 m)
